A practical Christian response to pornography for all leaders.

The shift from sex shop to smart phone has created huge problems for our churches and communities. *Porn has never been more accessible, affordable, anonymous or addictive.* Our heart is to equip leaders with a practical and pastoral response to the issue. This conference will feature short talks from experts including: activists, therapists and pastors. Delegates will be given a clear understanding of the social costs of porn and practical tools to address it in their churches and communities. The P Word conference is a partnership between CARE and NAKED TRUTH PROJECT, the flagship initiative of VISIBLE MINISTRIES.
