

# End Times? A Palestinian View

*A presentation by*

## **Mazin Qumsiyeh**

*Director of the Palestine Museum of Natural History and  
Institute of Biodiversity and Sustainability, Bethlehem*

*Professor Mazin is a geneticist and biologist at Bethlehem University and Founder of the Palestine Museum of Natural History and Biodiversity which is a conservation project, an oasis for creatures and humans set in the heart of occupied Bethlehem, for the flora, fauna and culture of Palestine. Mazin is passionate about the need to respond to catastrophic climate change and to put in place systems for sustainable living in every country of the world. He has written extensively on the conservation of species in Palestine and the Middle East. He is a strong proponent of non-violent resistance and has published books and articles on its practise.*

**Saturday 27 July at 2.00pm**

**St Mary's on the Quay Catholic Church**
