Blesson Kallimel

Blesson was born in India into a Christian family. His father was a Pastor who has planted hundreds of churches in India: this has influenced Blesson to become a Pastor and Evangelist. He has recently returned from a large Christian event in India, where many people from different religions have become Christians. He has also helped Christian families to leave Afghanistan. Blesson has seen many miraculous healings including some Covid sufferers and people have been delivered from the powers of darkness.
