

Welcoming Spaces Volunteers

*Do you have a couple of hours to spare once a week, fortnight or month?
Do you enjoy talking to people, or helping to cook and serve food?
Do you want to do something to love and bless people in your community?*

We'd love to hear from you!

What is a Welcoming Space?: Welcoming Spaces are warm, welcoming, safe and free spaces available to the public. They provide much needed warmth in winter months and provide spaces where people can make friends, engage in activities, have a hot drink or meal and make connections. These spaces are helping to alleviate cost of living concerns and create places of belonging.
